REP	Central Sales Lighting Alliance
SPECIFIER	ETI
PRODUCTS	In-Floor Extrusion Flex Extrusion L2.5W LED Tapelight

## CHALLENGE

Union Bank and Trust wanted to highlight a new coffee bar area in a recent renovation. The aesthetic needed to be modern, with uniform slim-profile lighting that could recess and bend around the area.

## SOLUTION

Flex Extrusion with L2.5W Tapelight was chosen to bend from wall to ceiling and highlight the signage.  
In-Floor Extrusion with L2.5W Tapelight was recessed into the floor between the coffee and office areas.
